

When a person close to you tests positive for COVID-19, or when you are contacted by someone who tested positive  
(undergraduate and graduate students)

Find out the date that the person became symptomatic for COVID-19 (the date they underwent the test that returned positive)

Does the person who tested positive live with you?

**YES**

**You are  
considered a  
"close contact"\***

**YES**

**Do either of the following two things apply to you?**

☐ I met with the person who tested positive less than two days before they developed symptoms

☐ I met with this person in a situation that puts me at risk of infection

Someone with whom you ate or drank together, were within 1 meter of while not wearing a mask, spent an extended period together in close quarters (karaoke, driving, etc.), spent a long time together in a face-to-face situation (playing board games, mahjong, etc.)

**NO**

**NO**

**Do you have the any of the following symptoms?**

Are you experiencing any symptoms such as a fever, cough, sore throat, headache, fatigue, difficulty breathing, loss of smell or taste, or other symptoms indicative of a COVID-19?

**NO**

**YES**

**Please self-quarantine**

(For seven days starting the day after meeting the person who tested positive)\*\*

- Please visit the Keio University Health Center website and submit the COVID-19 self-quarantine report

**Please self-quarantine**

(For seven days starting the day after meeting the person who tested positive)\*\*

- Please visit the Keio University Health Center website and submit the COVID-19 self-quarantine report
- Consult with your primary care provider or a medical institution that is prepared to care for close contacts (be sure to contact them and inquire in advance)

**Do you have the any of the following symptoms?**

Are you experiencing any symptoms such as a fever, cough, sore throat, headache, fatigue, difficulty breathing, loss of smell or taste, or other symptoms indicative of a COVID-19?

**YES**

**NO**

**You are not considered  
a close contact**

No action required at present. Please continue to follow infection control guidelines

\* In light of the high transmissibility of the Omicron variant, the Keio University Infection Response Center for COVID-19 has established criterion for those "considered to be close contacts," and asks Keio students to self-quarantine in order to prevent the spread of infections.

\*\* The period close contacts must self-quarantine is subject to change by the government. Please follow the most recent guidelines. Keio University Infection Response Center for COVID-19
